Some of the boys around town are trying to inject a political phase into the voting contest at Hunter's Pharmacy. Their idea is to get two young ladies for candidates for the free trip to Jamestown, one to run as a republican and the other as a democrat. ence has demonstrated to be entirely successful and satisfactory. By holding institutes for men and women, by soil surveys, by aiding desirable immigration, by more experimental farms, where the farmers may have the benefit of the actual work being done, by experts, as it should be done, by carrying on our fight against Texas fever, and along other lines of endeavor we believe as the last Legislature also believed, that we can work to better advantage alone. We believe that we can give the farmer better results. The work of the department is a great and comprehensive work, and the results are gratifying to the board.

### In Memoriam.

whereas, it has pleased Almighty God the Supreme ruler of the universe to remove from our midst, brother James M. Waldrop, we as brother Odd Fellows are called upon to mourn the loss of one of our most useful and beloved members of Ochlawaha Lodge 161.

Therefore be it resolved. First, That while our order has lost a true and faithful Odd Fellow and the community at large a faithful and loving friend, that our loss is his eternal gain.

Second, That while we bow in humble submission to our Heavenly Father's will, who doeth all things well, we shall ever miss the wise counsel and helping hand of one who was always ready and willing to do his full duty in everything pertaining to the uplifting and betterment of his fellowmen.

Third, That we extend to the bereaved family, and the members of our order, the heartfelt sympathy, and commend them to our Heavenly Father, who alone can heal the bruised hearts.

Fourth, That a copy of these resolutions be inscribed on the records of our Order, also copy of same be sent to the family, and to the local papers for publication.

## The New York World.

The Thrice-a-week World, now that a great Presidential campaign is foreshadowed, hopes to be a better paper than it has ever been before, and it has made its arrangements accordingly. Its news service covers the entire globe, and it reports everything fully, promptly and accurately.

It is the only newspaper, not a daily, which is as good as a daily, and which will keep you as completely informed of what is happening throughout the world.

The Thrice-a-Week World is fair in its political reports. You can get the truth from its columns, whether you are Republican or Democrat, and that is what you want.

A special feature of the Thrice-a-Week World has been its serial fiction. It publishes novels by the best authors in the world, novels which in book form sell for \$1.50 apiece, and its high standard in this respect will be maintained in the future as in the past.

THE THRICE-A-WEEK WORLD's regular subscription price is only \$1.00 per year, and this pays for 156 papers. We offer this unequalled newspaper and The French Broad Hustler together for one year for \$1.50. The regular subscription of the two papers is \$2.00.

## GOUDAU'S SHEEP.

It Watched His Dog and Satisfied the Tax Collector.

Emile Goudeau, a celebrated character of Paris, was one of the most confirmed bohemians that ever lived.

There is a story of him and a certain black spaniel which followed him with the faithfulness with which the historic little lamb attached itself to the dog, in fact, were never separated.

It dawned upon the tax gatherer of the neighborhood that Goudeau had not paid his dues for the "inferior brother."

He approached him, therefore, in as friendly a spirit as possible, being, indeed, an old acquaintance, and said, "M. Goudeau, I must ask you to pay your tax for the spaniel."

The bohemian was immensely surprised, or affected to be. "But don't you know, my dear sir," he said in a tone of remonstrance, "this is a sheep dog, useful to me in my work and consequently exempt from the tax?"

"But you are no shepherd," returned the tax gatherer; "you are a poet."

"No shepherd!" replied Goudeau. "Every poet is a shepherd. Have you not heard of Virgil and Theocritus?"

The poet would have recited twenty other names if the tax gatherer, alarmed at such a display of learning, had not stopped him. "But at least you have no sheep," he said.

"No; I admit that," said Goudeau. "It is because I am too poor. But I will rectify that."

And he did. Next day he was observed promading the streets of Montmartre with the same old black spaniel, but with a newcomer in the shape of a real, live, woolly sheep.—London Sketch.

## The Word "Cutler."

"Cutler," according to its present use, should mean a man who makes things that cut, but really it has no more to do with "cut" than "cutlass" and "cutlet" have, which is just nothing at all. "Cut" has some Teutonic origin, but "cutler" comes through French from the late Latin "cultellarius," which meant either a soldier armed with a knife or a knifemaker, and "cultellus," a little knife, was the diminutive of "cultus," which, among other things, meant a plowshare or "coultre." "Cutlass" comes from the same source, and "cutlet" is "cotelette," a little rib.
